Recovering self-esteem, awareness by reconnecting with reality: Wild Nature Planet.

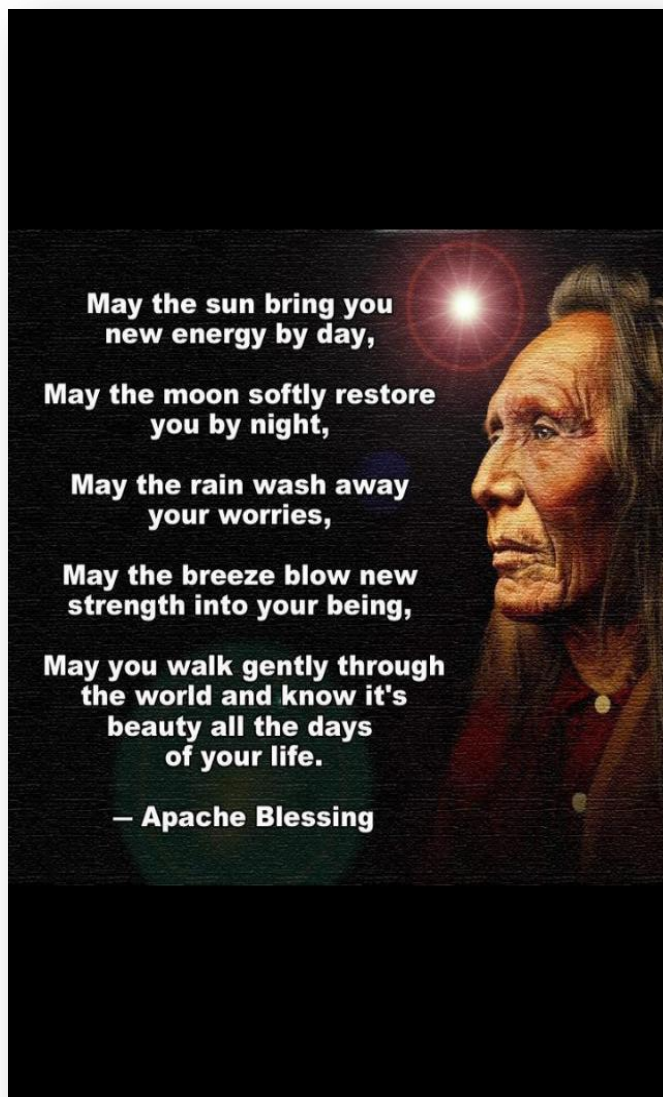

*Since time immemorial **Native People - like You and Me** - have consciously withdrawn from daily routine in their families, tasks and community-life, to remember who they really are. Motivated by the basic need to KNOW, who YOU, essentially, are, when all the daily routines of Who-, What- and Where-Abouts are fading away, they were retreating into the wilds of the mountains, deserts or forests, seeking solitude.*

Fasting from food, contact and amenities has always opened their heart, their eye and the sensitivity to the beauty, resilience and power of the Natural Reality. Finding true home in your own heart...naturally!

Staying solo, self – contemplating, getting in touch with SOURCE of LIFE

May the sun bring you
new energy by day,

May the moon softly restore
you by night,

May the rain wash away
your worries,

May the breeze blow new
strength into your being,

May you walk gently through
the world and know it's
beauty all the days
of your life.

— Apache Blessing

The aboriginal nations of all continents knew such ceremonies as an extraordinarily powerful way of reaching out for meaning, self-healing, finding clarity in their maturity's evolution, resuming deeper integration personally, socially, ecologically...

Today, in this time of such a unprecedented grave, fundamentally disrupting Crisis, we all might become more fully aware of the healing potential of those ancient ceremonies. Their enlightening impact is initiating an absolutely necessary quality of a grown-up human being today: the blessing of **MATURITY!**

Maturity is a very stout and precise definition, of the basic condition of Humans, who can build on a sturdy basis of Self-love, Self-reliance, balanced with love for respect and trust in 'the Greater Mother' which is a widely accepted and honorable synonym for **Mother Earth**.

What you can expect for yourself:

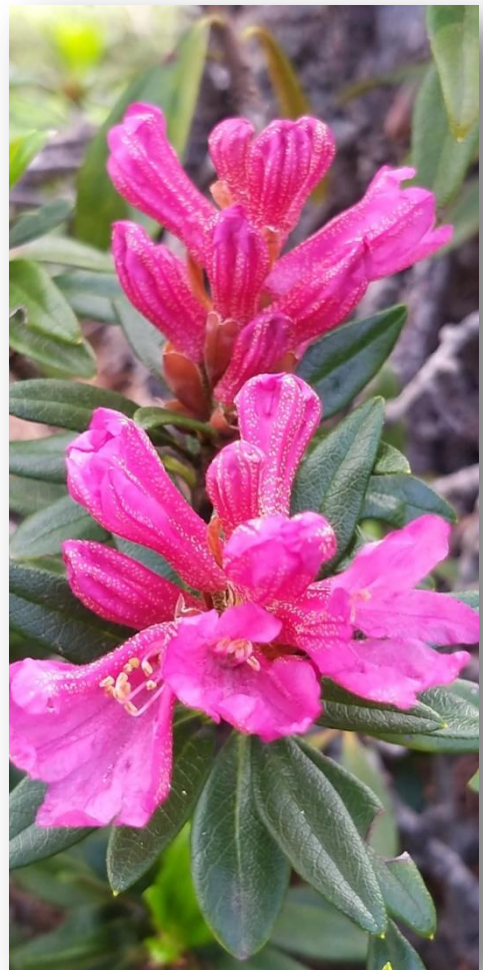

*In these times of change and transformation, such a threshold-ceremony can contribute significantly to your internal alignment and clarification, dignified honoring and final separating from being locked to the past. Simultaneously, the VisionQuest describes the courageous path of the ,hero', the ,heroine', from one completed stage of life to the next, more mature stage. Once everything is removed that so easily obstructs our view of the Essence of Life in everyday's struggle, suddenly we look truth in the face - revealing our own **Living Truth**.*

*We are faced and reconnected with ourselves;
genuine, inevitable, authentic!*

By our nature-based Ceremony we are activated irresistibly to take best care of ourselves; 'out there' each decision we make and take, affects our own self, directly. Lies therein an unexpected challenge and tremendous opportunity to bloom in your soul...

*For the **four days SOLO** of your vision-quest we will lead you into an extensive rocky landscape: open to the west – facing, mighty glaciers of Monte Rosa, (4670 m) and South – with waterfalls, breath-taking views, hidden ravines, hiding places, in the presence of knotty grandparent trees – a fairy-land, rich in expression, form and color ... where you go to meet the magic nights of June's late crescent moon! Countless rhododendrons, here called 'Alpine Roses', just then, exploding in plump and pink bloom - so amazingly contrasting the fresh, delicate light-green of the new shoots of abundant Juniper and Larch trees...*

Coming back from your solo-fasting, you want to be centered more profoundly, feeling self-reliant and connected to NATURE, may it be inside or around you; result of such life-changing, deeply nurturing endeavor.

Yes, still today we can use that ancient paradigm for thriving in essential, resilient well-being and growing more satisfying self-esteem in these times of crisis or change.
