Recovering self- awareness by reconnecting with reality: Your Wild Nature Planet.

*Since time immemorial grown-up **Native People, like You and Me** - born from a mother's womb - have consciously withdrawn from daily routine in their families, tasks and community-life, to **remember who they really are**. When all the daily routines of the Who-, What- and Where-Abouts are fading away, they were retreating into the wilds of the mountains, deserts or forests, seeking solitude for a deep and honest encounter with Life. Fasting from food, contact and amenities has always opened their heart, their eye and the sensitivity to the beauty, resilience and power of the Natural Reality. Finding true home in your own indigenous heart... quite authentic and naturally!*

*Staying solo for four days, you reconnect to Earth, skin to skin with **SOURCE of LIFE***

May the sun bring you
new energy by day,

May the moon softly restore
you by night,

May the rain wash away
your worries,

May the breeze blow new
strength into your being,

May you walk gently through
the world and know it's
beauty all the days
of your life.

— Apache Blessing

*The **aboriginal nations** of all continents knew such ceremonies as an extraordinarily powerful way of reaching out for meaning, self-healing; thus finding clarity in their maturity's evolution, resuming deeper integration personally, socially, ecologically...*

Today**, in this time of such, grave **Crisis**, fundamentally disrupting our routines, we all might become fully aware of the healing potential of those ancient ceremonies. Their enlightening impact is initiating an absolutely necessary quality of a grown-up human being today: the blessings of **REAL MATURITY!

***Maturity** is a very precise definition of the pre-condition of Your Human **Good Life!** A Life of great intensity, built on and rooted in a solid ground of Self-love, Self-Reliance, balanced with Love, Respect and trust in '**Mother Earth**'*

What to expect for yourself:

In these times of change and transformation, a **Ceremony** like this can contribute significantly to your **internal alignment** and **clarification**, **honoring** and final separating from being locked to the past. About being free... Simultaneously, your **VisionQuest** describes the courageous path of the 'inner hero' from one completed stage of life to a more mature stage. Going out into wild nature, leaving the 'civilized sphere' behind, we suddenly face the reality of our own **Living Truth**. Reconnected with our natural self – which is genuine, fragile, authentic and powerful!

For the **four days SOLO** of your VisionQuest we will lead you into an extensive rocky landscape: open to the west – facing, mighty glaciers of Monte Rosa, (4670 m) and South – with waterfalls, breath-taking views, hidden ravines, hiding places, in the presence of knotty ancestor- trees! Fairy-land, rich in expression, form and color ... where you go to meet the magic nights of June's late crescent moon! Countless 'Alpine Roses', just then, exploding in plump and pink bloom - so amazingly contrasting the fresh, delicate light-green of the new shoots of abundant Juniper and Larch trees...

Coming back from your solo-fasting, you will be feeling self-reliant and rooted profoundly, well connected to

NATURE – an absolute natural result of such life-changing, deeply nurturing endeavor.
