# Element Terra Peace

A Men's VisionQuest

»Wild Land - Wild Man 2023«

**Campus CreaVista SymbIOasis,  
Alpe Meccia, Monte Rosa, Italy**  
**Di 08/22/23 - Mo 09/04/23**

**Let Terra replace terror!**

This quest is about devotion to Natural Life. A space for peace, stillness and presence opens up for the Hero of Today! Just getting in touch with the country. Terra instead of terror ... finally getting living ground under your bare feet instead of dead things under the firm soles of your boots.

**Now what?**

There are moments in every man's life when ... he clearly feels that he urgently craves a time all to himself, a basic NEED emerging! Now! Absolutely no delay! ...

The question is: do you really want to go 'wild'? do you want to taste the unknown, merge into the very sensual, natural reality, breathe serenity?

Completely there, (a) present for yourself! As it has been all over the planet since time immemorial, continuously has happened!

**Nature and man - one to one!**

Skin to skin! Out there in the 'WILD', in direct contact with the dance of the elements.

Here and Now you can get to know your 'true nature'. Useless thinking will fade away, replaced by the unique experience, of 'making sense'.

Everything you encounter there, everything you can feel, hear, touch, see and do is a true, is a clear and clean mirror to you: weather and landscape, plants and animals, your emotions, activating your fears and joys, your patterns ... everything dances together; you've become a witness!

In you and around you there is pure beingness. Now, inevitably, you experience it: I am THAT - Everything ...

**Alone I am everything! I am in everything!**

**Traditional procedure**

VisionQuest is an archaic, global Movement since the ancient times, earliest human days, widespread practice of embodiment on GAIA, the HomePlanet. VisionQuest is a gift given to us for free!

'Mother Nature' offers unconditionally: real courage is the ticket. It is like coming home. The realization of completion: come to the Quest to perceive yourselves as a imperfect, but absolutely unique and appropriate natural being.

**Quest Ritual**

What a VisionQuest allows them brave men also is laid down in myths and fables of our European culture: tales of the 'hero',

who is on the sacred, forgotten path to find purpose in himself!

Only in finding the 'right question' of transcending himself, he can make peace with the pain in his heart. That is a elementary give - away that the hero brings back to the natural world, the entire mankind and to the man himself!

**I am a walking tree, I am you and you are me ...  
Head in the sky, Reaching so high ...  
Feet on the ground, Reaching deep down ...**

**Costs**  
€ 850.-  
to € 1450.-  
according to  
self-assessment,  
by your decision,  
after the seminar has  
been completed

**Extra Costs**  
€ 400.-  
vegetarian full board  
with infrastructure  
costs and materials

## ElementTerraPeace: Landscape is Soul

### Practical Information

This quest takes place in northern Piedmont, in a primeval landscape of the south-central Alps; where the highest Mountains of Europe with their majestic peaks over 4000 meters, their vast glaciers and crystal-clear rivers make the weather. Clarity, pristine shine and freshness determine the changeable events in this wonderful country.

### Preparation on site

#### Time to tune in and prepare:

on the Alpe Meccia, 1800 m, Campus CreaVista SymbIOasis, is where you sleep in your own tent at the edge of the forest, a hammock is also useful. Daily rounds of talks in the yurt circle, on the medicine wheel. Practical teachings and exercises for alone time. Delicious food from our wilderness kitchen, on a simple vegetarian wholesome base. ... your help per day.

#### Solo Time In Nature

four days of fasting and being alone in a wild place of your choice; in ritual connection with peer - group and safely accompanied from our attentive team.

## Time To Integrate Experiences

When you return from your SOLO TIME in the mountain forest, you carry a valuable treasure within you! An experience of your flourishing vitality, your unexpected power but also the acceptance your shadows and limits.

This experience can be processed in a very sustainable way as part of the ritual in the group and can be incorporated and anchored in the deeper layers of being a man.

**At the end of this time, a refreshed man will return to the valley who will come to terms with himself and will stand for himself with more empowerment and at the same time more consistently, conscious and in a gentle way.**

**We're looking forward meeting you!**
