

"Late Summer - Golden Harvest"

20.09. 25 - 3.10. 25

VISIONQUEST for WOMEN and MEN

with Shanti, Helen, Freya and Emilio & CreaVista Quest-Assistants

Terra Amica, Community Wilderness, Issiglio, Piemonte, Northern Italy

Becoming, who you naturelly are... Nature really is a Healing Field...

For your complete, unique, unforgettable recovery from the common illusion of being separated:

...in the pristine, alpine landscape next to the Valle Sacra River Wilderness in northern Piemonte we are offering a special ***VisionQuest for Real People*** who want to deepen and improve their ability of relating with themselves, their life-partners and the natural environment. **Best for couples!** Being fundamentally touched by the beauty of that wild, innocent landscape is the beginning of a never ending love-story. A journey is getting started, between you and the living nature, enabling you to unfold deeper potentials, showing never before realized aspects of yourself and may reveal surprising perspectives on your personal growth. To reach higher states of **Maturity** is taking a constant process of **flow, gratitude and realisation...**

Immersed in pure Nature

...this is a **CEREMONY** of for the realisation of self-respect, a pilgrimage for truth and on the deeper understanding of the preconditions of **PEACE** - inside You and in the outside world.

This **VisionQuest** is embedded into a rather untouched wild ambient with vast, light-flooded forests, clear waterfalls and untamed streams, between green mountains under deep skies.

The **loving atmosphere** of the small community *Terra Amica* and it`s dedicated people will hold for you a safe space, encouraging your going deeper into discovering **WILD SELF**!

The Ancient Ritual of the VisionQuest is taking you in - the pilgrims on a journey to ´them-selvas. The wild landscape, we chose for these 12 days of clarification and rising awareness is full of wildlife and beauty. The adjacent valleys and mountains are famous for their incredible biodiversity and we will have access to a pristine and lonesome valley for our solo-time. In those late summer days, there are golden eagles circling, you may listen to the wind, brushing out golden, green leaves, out there in the sacred, dreaming forest, home of your soul...
